Benarous Tunisia

## CORE SKILLS

- Leadership
- Teamwork
- Public Speaking
- Time Management
- Problem Solving

## LANGUAGES

- English
- French
- Arabic

## TECHNOLOGIES

- SSIS/SSAS
- OLAP Cubes
- CDC
- MDX/DAX
- Power BI
- Microsoft Fabric
- SAP HANA
- SQL
- Docker
- Redshift
- Scrum

## CENTRE D'INTERET

- Music Teacher
- Hackathons
- Volunteering

## VIE ASSOCIATIVE

- Leadership Trainer
- First Responder CRT
- Membr Enactus IsetR
- Membr IEEE
- Executive Alumna Tunisia88

## PROFIL

Passionate about data exploitation and valorization, I am a Master's student in Business Intelligence, backed by a foundational 3-year Bachelor's degree in Information Systems Development. Driven by an analytical mindset and a strong technical curiosity.

## EDUCATION

### Master's Degree in Business Intelligence (MI)

Higher Institute of Technological Studies of Radès 2025-2026

### Bachelor's Degree in Information Systems Development (DSI)

Higher Institute of Technological Studies of Radès 2022-2025

Graduated with Highest Honors

## ACADEMIC PROJECTS

### MovieLens Analytics(SSIS/SSAS Cube)

- Star schema modeling and analysis of over 100k movie ratings. Built custom ETL workflows, developed OLAP cubes, and designed interactive KPIs to analyze user behavior trends and recommendation systems.

### House Pricing(R/Python/streamlit)

- End-to-end Machine Learning pipeline (ETL, Feature Engineering) processing over 20k real estate records. Implemented predictive modeling and deployed interactive dashboards using Streamlit.

### Weather pattern(Python,Streamlit)

- Processed a comprehensive dataset of over 50k weather records through automated ETL pipelines. Applied Machine Learning forecasting models and deployed an interactive analytical dashboard using Streamlit.

## PROFESSIONAL EXPERIENCE

### Graduation Thesis Internship (PFE)

Safari Voyages 2025

- Designed and developed a custom ERP system to digitalize the agency's internal operations, including user access control, client relations, point-of-sale management, quotes, and a comprehensive HR module (attendance tracking, leaves, contracts, and salary advances). Integrated an internal messaging application with real-time notifications using Next.js, PostgreSQL, and Prisma ORM.

### Advanced Internship

Siège de TOPNET 2024

- Developed a web application dedicated to automating and tracking employee leave management for the company. Built the system architecture using Angular, JSON Server, and MySQL.

### Introductory Internship

ArabSoft 2023

- An immersive internship into the professional software industry, gaining hands-on exposure to Oracle environments and enterprise resource planning (ERP) architectures.
